Artist Statement

My art is made of whispered moments in time,
light frozen in photographs,
that fly from my heart out into the world.

I make art to inspire and illuminate,
for encouragement and courage.

The fleeting moments captured in images
are experiences I release to others.

Together, we witness the last moment of a raindrop,
paused at the tip of a leaf.
We feel the moment clouds infuse with corals and purples
before fading into night.

Each viewer applies lens and language
shaped by his or her life's experiences,
uniquely receiving, translating, labeling.

As co-creating partners, we complete the work together.
